

Answers first

EQUIPMENT

Prepared "Answer cards".
Pencils and paper.

BEFORE

The teacher prepares a set of "Answer cards".

AFTER

DESCRIPTION

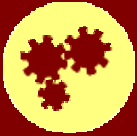

Students work in small groups (of 3 or 4).

The teacher gives each group an "Answer Card".

Each group has to make up 3 or 4 questions that have that answer.

In turn, each group poses their questions to the rest of the class - until someone answers correctly - scoring one point for each question that they needed to read.

NOTE: Answers can be simple (e.g.: red, 36, elephant), difficult (e.g.: French, Arsenal, Thursday) or downright obscure (e.g.: 41, dynamite, paperclip) and can be differentiated to suit group ability levels.
