

“FOLDING STUFF”

PHOTOCOPY the two sheets back to back. CUT OUT the 4 x 4 SQUARE

It should resemble a flag with the colours on the front squares matching those on their reverse sides.

PREPARATION – fold all the joins along the edges of the squares (or carefully score with a sharp point)

THE CHALLENGE is to fold the “flag” (along the join lines only) so that the result is a 2 x 2 SQUARE

- with all the RED squares showing on one side
- then with all the GREEN squares showing on one side
- then with all the BLUE squares showing on one side
- and finally with all the WHITE squares showing on one side

HAVE FUN!
