

# Magic Wallet

You will need:

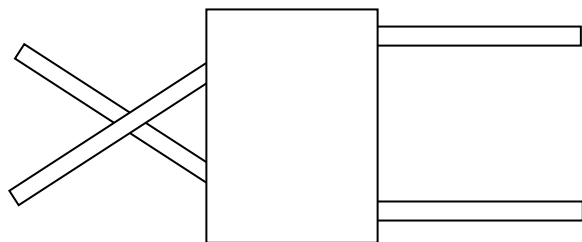

4 pieces of card – each about 9.5 cm x 13.5 cm (You can cut out the pieces from the sheet.)

4 pieces of ribbon – each about 16 cm long (Approximately 1.5 cm wide is best.)

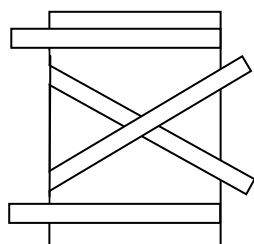

Glue.

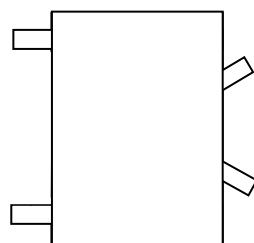

Place PIECE 1 on a flat surface. Glue the ribbons in place – using the dotted guidelines on PIECE 1 - as shown in the diagram.

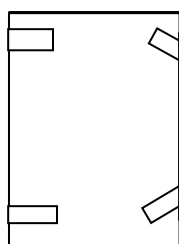

Glue PIECE 2 on top of PIECE 1 – so that it traps the ribbons in place. Make sure you glue right to the edges – but do not use too much glue!

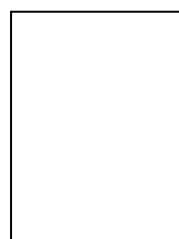

Fold the ribbons back across the top of PIECE 2 – as shown - keeping them taut.

Place PIECE 3 on top of PIECES 1 & 2.  
DO NOT GLUE IT.

Fold the ribbons over onto PIECE 3 and glue them in place. Use the dotted guidelines. You may need to cut some of the ribbons.

Glue PIECE 4 to PIECE 3 so that it traps the ribbons in place. Glue right to the edges. Do not use too much glue.

## USING YOUR “MAGIC WALLET”

Open the wallet. It will show crossed ribbons on one side & straight ribbons on the other side. Place a five pound note (or a piece of paper) under the crossed ribbons. Close the wallet by flipping the right side across. Now say some “magic words”. Open the wallet again by flipping the right side across.

Hey presto! The five pound note is now under the straight ribbons!
