

EFFECTIVE THINKING CHALLENGE

The most effective way to learn is of course by "doing". The Brainboxx *Effective Thinking Challenge* is a great way to introduce both pupils and teachers to effective Thinking Skills through action learning.

You provide the classroom, the pupils and the teacher(s). We provide the action!

A stimulating, challenging day in which teams of pupils take on a number of thinking challenges - which include:

- Word-based challenges (literacy)
- Number-based challenges (numeracy)
- Visual thinking
- Logical thinking
- "Hands on" (practical) thinking
- and ... the kind of challenges that require a flash of creative inspiration.

Pupils, both in their teams and as a class, discuss, reflect on and learn from the thinking strategies they've applied. They also get to develop their own *Thinking Challenges* (time permitting).

Teachers taking part learn how to *effectively* introduce Thinking Skills into their own classrooms.

As an extra incentive, winning teams get a big box of Cadbury's Heroes to share – assuming I don't get to them first!

BOOK NOW!

If you would like to find out more, e-mail your details (name, school, e-mail, phone number) and we will get in touch with you.
